Advanced Training Workshop

Root Coverage

March 28 – 30 2019

The **Advanced Training Workshop on Root Coverage** is an interactive course, powered by focused hands-on training, video demonstrations and 3D live surgery. It aims at clinicians wishing to upgrade their skills in the application of mucogingival surgery. The course consists of an integrated approach

designed to build and extend the skills of the practicing periodontist in the area of contemporary mucogingival surgery and microsurgery with special focus on root coverage at single and multiple sites. The material will be covered with lectures, practical exercises on simulators, case discussions, treatment planning exercises and 3D live video demonstrations.

This intensive 3 days course focuses on 3 main objectives:

1. the acquisition of state of the art knowledge and competence
2. the acquisition of the practical skills and
3. the ability to apply them to the solution of practical clinical cases.
