Advanced Training Workshop

Furcation & Hopeless Teeth

January 15 – 17, 2020

The **Advanced Training Workshop on Furcations and hopeless teeth** is an interactive course, based on lectures, case discussion and powered by focused hands-on training, video demonstrations and 3D live surgery. It aims at clinicians wishing to upgrade their skills in the application of **Periodontal Regeneration** to teeth with **furcation defects** and to teeth with **very severe prognosis up to conditions defined as “hopeless”**.

The course consists of an integrated approach designed to build and extend the skills of the practicing periodontist in the area of contemporary periodontal regenerative surgery, microsurgery and minimally invasive surgery. The control of tooth mobility and endodontic condition are discussed in a multidisciplinary fashion. This 3-day intensive interactive training workshop has many major

Learning objectives

- Changing the prognosis of furcated, questionable and hopeless teeth
- Optimal preparation of the patient
- Evaluation of tooth mobility and endodontic condition
- Pre-surgical management of the regenerative site
- The furcation problem: pre-surgical diagnosis to plan flap design and regenerative strategy on mono and multi-rooted teeth
- Perfecting surgical management: microsurgery and minimally invasive surgery
- How to debride a furcation
- How to manage a hopeless tooth
- Primary closure and stability of the wound
- Post-surgical control of early wound-healing
- Favoring and enhancing bone maturation.

Day 1

9:00-13:00 - lunch - 14:30-18:30

Furcation & Hopeless Teeth

Wednesday, January 15

**Acquisition of state of
the art competence**
**Furcation defects and
hopeless teeth**
*Theory with video
demonstrations and
discussion*

1. Multi-rooted teeth: anatomy, diagnosis and prognosis of furcation defects
2. Clinical objectives, indications, limits and prognosis of periodontal regeneration in furcations
3. Critical evaluation of periodontal regenerative materials
4. The clinical problem: debridement of the furcation. Choice of Instruments and materials
5. Class II furcation in lower molars and buccal class II furcation in upper molars: the buccal / lingual flap and the coronally advanced flap
5. Mesial / distal class II furcation in upper molars: the papilla preservation flap and the minimally invasive surgery
7. Class II and III furcation at upper and lower molars associated to intrabony defects: the papilla preservation flap and the minimally invasive surgery
3. The "hopeless" tooth: a multidisciplinary diagnosis and treatment approach
9. Evaluation and control of tooth mobility and endodontic condition
10. Application of papilla preservation flaps and minimally invasive surgery
11. Selection of the regenerative materials
12. Re-evaluation to assess the improvement of tooth prognosis
13. Long-term prognosis of regenerated teeth.

*Venue: DentIdea Training Centre
Via C Botta 18, 50136 Firenze*

TANGRAMODIS
Continuing education in dentistry

Day 2

9:00-13:00 - lunch - 14:30-18:30

Furcation & Hopeless Teeth

Thursday, January 16

**Application of
regeneration on
patients.**
*3D live surgery
planning and
discussion*

Planning and discussion of surgical cases with furcation involvement

1. 3D live surgical demonstrations
2. Post-operative instructions and medications
3. Presentation and discussion of clinical flow-charts
4. General discussion

*Venue: DentIdea Training Centre
Via C Botta 18, 50136 Firenze*

TANGRAMODIS
Continuing education in dentistry

Day 3

9:00–13:00

Furcation & Hopeless Teeth

Friday, January 17

**Acquisition of the
Practical Skills**
*Hands-on
surgical exercises on
anatomical simulators*

1. Hands-on in depth tutorial on surgical methods
 - a. Papilla preservation flaps
 - c. Minimally invasive surgical techniques
 - d. Single and multilayer internal mattress sutures
 - e. Application of regenerative materials.
2. Discussion of surgical tips.

*Exercises will be performed on specifically designed silicone models with step by step supervision by the speakers. **All instruments and materials will be provided** (with the exception of 2.5–5x magnification device/loupe that participants should bring with them).*

Venue: DentIdea Training Centre
Via C Botta 18, 50136 Firenze

TANGRAMODIS

Administration

Advanced Training Workshop

Furcation & Hopeless Teeth

January 15 – 17, 2020

Cost of the course:

€ 3.100,00 (including VAT: VAT is the Italian tax)

(lunch, coffee breaks, use of simulators, use of instruments and materials for hands-on surgery are included)

Registration Module for the
“Advanced Practical Course on Periodontal Regeneration” TO-0120
You can register online at www.tangramodis.it/en page “Activities”

Name _____ Family Name _____
Address _____ City _____
Postal code _____ Country _____
Phone _____ Cell phone _____ Fax _____
e-mail _____
VAT or SSN # of payee or Tax Identification Number _____

Payment: the total fee of € 3.100 can be paid through

☐ **Wire Transfer to:**

Tangram-Odis srl – Banco Popolare Società Cooperativa,
Agenzia 1 – Viale Mazzini, Firenze c/c n° 382703,
IBAN: IT82R0503402802000000382703
SWIFT: BAPPIT21N26

Please indicate in the wire transfer: Course TO-0120

☐ **Credit Card:** Download the Credit Card Authorization form our website

*Please, fill the form in all its parts, enclose the wire transfer receipt and
– mail to:*

Tangram – Odis srl
Via C. Botta 16 – 50136 FIRENZE
Italy

– or fax to: + 39 055 241021
– or e-mail to: corsi@tangramodis.it

We are sorry not to be able to offer refunds or discounts for your cancellation of
the course at any time after confirmation.

** EU Residents with a VAT registration in their own
country could request to personally pay the VAT
through the mechanism of the “reverse charge” (art.
17 DPR 633/72).*
